-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-26 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The term "short" in claims 1, 9, 11, 15 and 21 is a relative term which renders the claim indefinite. The term "short" is not defined by the claims, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention. It is uncertain what distance is being defined by "short."

Regarding claims 1, 8, 10, 13, 15, 19 and 21 the recitation "-like" renders the claim indefinite. The metes and bounds of the claim cannot be determined.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3752

4. Claims 1, 6-14, are rejected under 35 U.S.C. 102(b) as being anticipated by Nees (3,266,737).

It is noted that claim 1 recites "a plurality of ramps" in line 10, but claim 2 recites "said ramps each have a selected different declination angle." Similarly, claim 3 recites "said ramps are arranged in a side-by-side array along said lower margin of said nozzle outlet, and further wherein each one of said ramps has a declination angle different from each the declination angle of each ramp adjacent thereto." Claims 2 and 3 support the proposition that claim 1 can define a plurality of ramps which are side by side having the same declination angle. In essence, such a configuration would result in one ramp.

Nees discloses a nozzle comprising: a nozzle body 12; a plurality of ramps 56.

5. Claims 1-26, are rejected under 35 U.S.C. 102(b) as being anticipated by Hegstad (2,778,687).

Hegstad discloses a nozzle comprising: a nozzle body 10; a nozzle outlet 13; a front face plane (outside surface parallel with surface 23); a plurality of ramps 29, 31
